

Market

CAREFUL PRODUCTION BASED ON WORLDWIDE STANDARDS

The factory of DESIGN FANTASY manufactures furniture and observes and follows the world standards in design and technology. In this way, it offers products with identically high standard on the Macedonian market. The long years of work in the research of materials, especially in their limits of durability, has allowed DESIGN FANTASY to return the structure to its bases, to be essential, creating products which express the design based on the highest quality products. The materials which are used for the products are easily identifiable, pleasing and can be adapted in different environments, so that in the end, they can be separated, degradable, which is very important in every contemporary eco-production of furniture.

Achievements

QUALITY GUARANTEED BY DESIGN FANTASY

DESIGN FANTASY is a strictly functionally oriented production, with a tendency towards ergonomics and safety. In this manner it never fails in discovering design and constructive solutions, which are truly innovative. DESIGN FANTASY has established principles of its philosophy and they are based on the constant, long-lasting ear for the wishes of the heart and the needs of the consumers, its clients, with respect for the application of exclusively natural materials. The solutions of the

furniture in DESIGN FANTASY are very innovative from a design aspect, especially the technologies, always coordinated with the project for space, made out of materials which can be processed in a more sophisticated manner than any other on the local market. DESIGN FANTASY has won numerous awards, which prove its quality, such as:

- Skopje fair „Furniture 1996”, Golden Bridge for the overall kitchen program
- Skopje fair „Furniture 1997”, Golden Bridge for the overall program for wooden windows and doors, Golden Bridge for the bathroom furnishing program, model “Anton” and the Golden bridge for kitchen, model “Amazon”,
- Skopje fair „Furniture 1998”, Golden Bridge for a kitchen, model „Techno”; Silver Bridge for the composite furniture, model “Fantasy”; Golden Bridge for children’s room, model “Diana”

- The Ministry of Economy of RM awarded them with 1st place for the Best Product from the Wood Industry, category: Kitchen; and 3rd place for the Best Product from the Wood Industry, category: children’s room.

The number of interiors made by DESIGN FANTASY is truly great. In short, one of the first premises are the Hotel Chingo, Desaret and Granit in Ohrid, then come many public premises such as McDonalds, the management buildings (offices) and sales points of T-Mobile, the points—of —sale of VIP. Of course the strongest references of DESIGN FANTASY are the socially significant

facilities such as the National Bank of the Republic of Macedonia, the Government of the Republic of Macedonia, The Faculty of Economy, FON – the First Private University, IK Bank, and the interiors made in the last few years, such as the Presidential Villa Vodno, The Memorial House of Todor Proeski, the Museum Complex of the Macedonian Fight for Independence- Museum of VMRO and the Museum of the Victims of the Communist Regime, The Ministry of Foreign Affairs, The Constitutional Court of the Republic of Macedonia. There are many other facilities which are projects in progress for DESIGN FANTASY and they make the reference list quite vast.

History

WORLD FAMOUS, BUT STILL OUR OWN

DESIGN FANTASY is a domestic company for furniture production. Its beginnings date from 1994, which means that it has been present on the market for 17 years now. All these years it has been dedicated to its mission: project design, production and furniture assembly. Due to the serious approach, the constant modernization of the production and developing of the products, in the period from 2000 until 2005 it began to manufacture furniture for export on the European market. Taking into consideration that 80% of the production is intended for export, such as furniture from the category of massive furniture (made out of massive wood), as well as the facts of the high standards and the discerning taste of the European market, it is becoming evident that this Macedonian company has an ambition for constant development and enhancement. The policy of the firm, which is based on the making of furniture by order; i.e. by project, makes the work in DESIGN FANTASY quite specific. Mostly, this means great dedication towards the client and the project for the given space, constant monitoring of the design trends, the technologies and the production materials. All this rounded up with the professional relationship of the highly trained staff defines DESIGN FANTASY as a brand distinguishable for its quality.

Product

PUBLIC FACILITIES – OUR STRONGEST REFERENCE

The special pride and joy of DESIGN FANTASY are public premises such as theatres, museums, banks, restaurants, cafeterias, boutiques, hair salons ... In addition to the challenge to design something which will be exhibited for the critical observation of many people, the public places demand criteria and their arranging, especially when it is the matter of their equipping with furniture and the remaining equipment.

WORK PREMISES - EMITTING WITH THE RECOGNIZABLE RESPONSIBILITY

The responsibility which these institutions need to emit without reservation makes the arranging more difficult as a task. The multifunctional working zones of DESIGN FANTASY are considered to be one of the latest innovative solutions, which are resolved more successfully by using materials which are more sophisticated than ever, which is considered to be an additional quality, especially if it is a matter of clients/company which can value the qualities of the natural materials in their space.

HOUSING – A PLACE WHERE YOU CAN REALLY BE YOURSELF

The motto "The Shape Follows the Function" insufficiently defines the specificity of the clients for DESIGN FANTASY regarding their living area. The home needs to be the place where you can really be yourself – a temple for the soul! Then, how do we choose the right one for us? The answer lies in DESIGN FANTASY, a market oriented company, with a constant attention for the demands of the well directed, specific and informed clients.

Recent Developments

In 2005, DESIGN FANTASY had 50 employees and had already won 20 golden plaques at furnitu-

re fairs. The result of the success is due to the technology, the staff of professionals, but also the continuous supply of exclusively high-quality raw materials from renowned world-famous companies, such as Mak Isovolta Austria, Kolpa Slovenia and many others. A team of expert architects, furniture designers works in the process of designing, and in the realization there is the best team of carpenters and masters of their trade, and this leads to the personal, characteristic and already built style in the furniture design and the equipment of the interiors it produces. This is why the representative, capital facilities of public interest where DESIGN FANTASY put its signature are the proof of the top quality. Today, it is a modern factory with its own plant of 6.500m², equipped with the most modern technology for furniture production, immaculately arranged showroom of 1.500m², and about one hundred employees.

Promotion

The process of cooperation with architects during the design and equipping of premises is a complex one. Of course, it is simplified with a good project. In that process DESIGN FANTASY creates space dedicating itself with attention to the idea of the architect. All who have cooperated with DESIGN FANTASY know this to be true. This is why for

of the column "Enterieri", always with the same mission- to demonstrate to the Macedonian people that even at home, in Macedonia, you can buy furniture with European quality, but domestic production.

Brand Values

SOCIAL REPOSNSIBILITY – EXCLUSIVELY ECO-COMPATIBLE MATERIALS

In its furniture production, DESIGN FANTASY uses biodegradable materials and energy efficient processes, creating products made of recyclable materials. This has led to the end of toxic emissions and contaminating chemical substances, with the final goal to ensure a guaranteed long life of its products. These are, at the same time, the fundamental principles of eco-compatibility, which have inspired the creation of its products and are the essential starting point of DESIGN FANTASY in the development of its products which have minimal impact on the environment and which are never dictated by fashion.

DESIGN FANTASY is in possession of the Certificate ISO 9001:2008 and ISO 14001:2004 and bases its work on the integrated quality management system and protection of the environment, which have been introduced, implemented, and function in accordance with the require-

DESIGN FANTASY the cooperation with the architects is very important. Then they are at peace, because – *there is someone to take care of business.*

DESIGN FANTASY has promoted its interiors in the Show for interior design of educational and informative nature, with consistency and endurance, a show which was featured on TV Telma from 2004 until 2011. In this way DESIGN FANTASY contributed to the raising of the awareness of every individual (potential client) for the need of a good project, for the significance to live with high-quality furniture in a beautifully decorated home, as well as during the purchasing of furniture to be careful in assigning this responsible function.

In addition to the television media, DESIGN FANTASY consistently promoted its interiors in the professional magazine "Porta3" in the frames

ments of the standards. The greatest value of DESIGN FANTASY is in the perfect knowledge and work with exclusively high-quality materials.

THINGS YOU DIDN'T KNOW ABOUT...

DESIGN FANTASY

- DESIGN FANTASY is the only company in Macedonia which laminates chipboards, and then uses them in the production of furniture, while using eco-friendly materials only;
- The showroom and factory for furniture production of DESIGN FANTASY with the surface of 8.000m² are the only center for designing, production and sales of furniture of this size in the country;
- DESIGN FANTASY is very famous for its humanitarian actions, such as the one for Children's Embassy "Megjashi", and one of the last, but certainly not the least important is the repair of the burned down and destroyed quarters of the Monastery St. Jovan Bigorski;
- One of the humanitarian actions, which are a great pride for DESIGN FANTASY, is the two-time assistance for the Pediatric Clinic with furniture and equipment.
